

Professor of English & Technology

Highlights of Skills & Qualifications

Technological Expertise

- Strong grasp of front-end development languages, specifically ECMAScript6, HTML5, and CSS3
- Excellent experience with ECMAScript evidenced by the creation of multiple applications that dynamically generate DOM elements in real-time through on-event listeners, recursive programming, and RESTful API calls to APIs such as Twitch, MediaWiki, Forismatic, & OpenWeatherMap
- Deep experience working with responsive design via Bootstrap 4, having utilized it to create full, responsive webpages featuring navigation bars, integrated Google Maps, collapsible menus, modals, and contact forms
- Extensive knowledge of WordPress developed through the creation of numerous sites for paying clients - featuring WooCommerce with Stripe, integrated service booking plugins, and SEO optimization - as a part of the Summer Company Program 2017 hosted by Enterprise Toronto
- Adept at navigating host control panels, domain allocation, and utilizing Mozilla FTP to transfer files between local computers and servers
- Working knowledge of the Git command line and online collaboration through continual use of the version control system throughout the development cycle

Team-Player

- Volunteer at NYGH's Senior's Day Hospital, wherein I work with a team of healthcare professionals to run orientation sessions & educational presentations, configure hardware such as iPads and smart TV's, and work one-on-one with clients to simplify their devices and make them more accessible
- Led technological innovation at the International College at the University of Suwon in Korea, simplifying online content creation, training professors on new audio & visual hardware, and introducing and supporting the use of real-time, in-class quizzing software.
- Partnered with Big Brothers Big Sisters of Toronto by mentoring disadvantaged youth ages 8 to 12, facilitating life-changing relationships that inspired and empowered these children to reach their potential, both as individuals and citizens
- Co-created the new 200-page English lesson book and syllabus currently utilized by the Takamatsu Board of Education in Kagawa, Japan
- As president, led the Philosophy Course Union to win an annually distributed award for being the most active, effective, and professional course union at the University of Toronto

Dedicated Learner

- Self-starter dedicated to coding everyday and utilizing the web's best resources, namely freeCodeCamp, CodeAcademy, GitHub, Stack Overflow, & Lyinda.com
- Driven to continually learn, as evidenced by the attainment of 9 certifications in web development and coding from Lyinda.com since February 2017
- Presented at over 10 graduate conferences and symposiums, winning \$5,000 in special funding for academic research
- Published in both Ryerson University's graduate research journal and the University of Toronto's undergraduate philosophy journal in order to build a graduate school portfolio
